

# TRAFFIC FILM REMOVER CONCENTRATE OR READY-FOR-USE

## Product descriptions –

**Concentrate:** Intended to be diluted 1 part to 4 parts water before use through pressure washers. Contains sodium hydroxide 1%.

**RFU:** Ready for use product for use in hot water pressure washers. For light duty cleaning, the RFU can be diluted 50/50 with water.

## **Directions for use:**

Adjust chemical control valve to 1.5 to 2.5 or to give desired amount of foam at the lance. Apply evenly over the vehicle starting at the lower edge and working upwards. Allow time for the TFR to loosen the dirt but don't allow to dry on the surface. Pressure wash off with clean water. Wear suitable PPE.

Information

For professional use only. Always consult the MB Coatings Health and Safety data sheets. Always read the risks and precautions stated on the product label.

The information contained in these pages is not intended to be exhaustive, and all persons using the product without first obtaining confirmation from MB Coatings as to the suitability of the product for the intended use, does so at their own risk. Whilst every effort is made to ensure the information given about the product (whether in this sheet or otherwise) is correct, we have no control over the quality or condition of the substrate or the many factors affecting the use and application of the product. Therefore, unless we specifically agree to do so, we do not accept any liability arising out of use of the product. All information contained in this sheet is liable to modification from time to time, and we reserve the right to change the product in accordance with our policy of continuous product development.
