

# Silicone Remover

This product is used for cleaning surfaces before lacquering. Silicones, wax and grease prevent the user from achieving a good coating. This can be used on plastic and metal surfaces.

Colourless

VOC content – 738 g/l

This product therefore meets the European Directive (2004/42/WE) – category (cat.B/1) at the level of 850 g/l for the ready product.

Use for cleaning substrates.	<p>Steel substrate  Metal substrate, not primed  Aluminium substrate  Polyester fillers  Stainless material  Old lacquer coatings  Acryl filler</p>
Caution	<p>Follow the instructions on the Safety Data Sheet.  Keep away from children  Use appropriate PPE</p>
Storage	<p>Store in a sealed container in a cool dry place away from fire and heat sources. Keep away from direct sunlight.  Close the container after use.</p>
 Information	<p>For professional use only. Always consult the MB Coatings Health and Safety data sheets. Always read the risks and precautions stated on the product label.</p>

The information contained in these pages is not intended to be exhaustive, and all persons using the product without first obtaining confirmation for MB Coatings as to the suitability of the product for the intended use, does so at their own risk. Whilst every effort is made to ensure the information given about the product (whether in this sheet or otherwise) is correct, we have no control over the quality or condition of the substrate or the many factors affecting the use and application of the product. Therefore, unless we specifically agree to do so, we do not accept any liability arising out of use of the product. All information contained in this sheet is liable to modification from time to time, and we reserve the right to change the product in accordance with our policy of continuous product development. Silicone remover - shelf life – 2 years from date of manufacture.
